the onsite bottle crushing system

This revolutionary system reduces the disposable volume of your empties by 80%, meaning that where you previously had five bins you can now use just one. The unit is extra quiet, making no more noise than a cash register, so there's no disturbance, no clanking and clattering to annoy customers, neighbours or councils. BottleCycler also stops bottle disposal from being a real hassle, freeing staff for more important things... like providing the service to your customers, and generating more turnover.

Compact, simple to use and unbelievably quiet...

GUARANTEED THE QUIETEST IN BOTTLE RECYCLING

If space, time, noise, OH&S and environmental best practice are issues you face, BottleCycler can help to resolve these.

TESTIMONIALS

Time

"Taking crates from the central bar to the loading dock took us 20 hours per week if not more, and it was risky. Now we only spend 2 hours on the same work."

Stamford Grand Hotel

OH&S

"We decided to enter a service contract due to an OH&S accident. With the crusher there is no more lifting or contact with broken bottles."

South Sydney Juniors

Green

"Sofitel is gradually implementing a 'greener' approach to all facets of its operations and BottleCycler fits in perfectly with this."

Noise

"Definitely reduced outdoor noise."

The Market

"We are situated in a residential area, by eliminating the noise of bottle collections we were able to counter a lot of noise complaints."

Engadine Bowling Club

"Instrumental in getting our permit."

Maggies

Tidy

"It's awesome, no empty bottles to be found on the premises."

Hotel Mosman

Space

"We were able to turn the store room into extra guest seating thanks to the introduction of the crusher."
